a point you don’t understand etc.

Assessment:
Grades will be determined using the scores from the following assignments:

<table>
<thead>
<tr>
<th></th>
<th>%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Final</td>
<td>40</td>
</tr>
<tr>
<td>Homework</td>
<td>40</td>
</tr>
<tr>
<td>Project</td>
<td>20</td>
</tr>
<tr>
<td>Total</td>
<td>100</td>
</tr>
</tbody>
</table>

Exam and Homework policy:
Note that we grade only what you write and we do not grade what you think. Therefore write
each step of your solution clearly and do not skip any step.

**Homework:** There will be weekly assignments. I will assign a set of homework each Wednesday and it will be due next Friday in class. No late homework will be accepted for any reason. Any assignment not turned in on time will receive a zero. To allow for unexpected absences a few of the lowest assignment scores will be dropped.

You are allowed to submit your homeworks in groups. You can choose your group. A group may have 1, 2 or 3 student (No more than 3 student). That means you can submit your homework alone. You can be in different groups in different homework set. Each member of the group receives the same grade.

You are encouraged to discuss homework assignments with members of your group (i.e., no interaction between groups.) Each group will submit only one paper.

Respect yourself and your work and do not let anybody abuse your work. Namely, DO NOT WRITE ANOTHER PERSON’S NAME IF he/she did not work for the homework enough. Failure to do so is a violation of the University Policy on Ethics (see Ethics Statement below) and will be reported to the Ethics Board.

You should write very neat. If your handwriting is not readable, use a word processor. Your TA may refuse to grade your homework if it is not clearly written and you will get 0 as grade. It might be a good time to learn Latex.

**Attendance:**

Attending and participating in every class is crucial to your success in this course. Although there is no penalty for not attending to the class, a student absent from class bears full responsibility for all material covered and announcements made in class.

**Cell Phones, & Laptops :** Please turn these off or set them on silent mode. No laptop please.

**Assistance:** You can get assistance

- My office hour
- Your TA’s office hour
- **Math Help Room:** Krieger 213, Monday - Thursday 9am - 9pm; Friday 9am - 5pm;

**Announcements?**
Check your e-mails daily. Any kind of information related to homework, cancellation of classes etc. will be emailed.

**Academic honesty** Cheating is wrong. Cheating hurts our community by undermining academic integrity, creating mistrust, and fostering unfair competition. The university will punish cheaters with failure on an assignment, failure in a course, permanent transcript notation, suspension, and/or expulsion. Offenses may be reported to medical, law, or other professional or graduate schools when a cheater applies.

Violations can include cheating on exams, plagiarism, reuse of assignments without permission, improper use of the Internet and electronic devices unauthorized collaboration, alteration of graded assignments, forgery and falsification, lying, facilitating academic dishonesty, and unfair competition. Ignorance of these rules is not an excuse.

Report any violations you witness to the instructor. You may consult the associate dean of student affairs and/or the chair of the Ethics Board beforehand. See the guide on "Academic Ethics for Undergraduates" and the Ethics Board Web site ([http://ethics.jhu.edu](http://ethics.jhu.edu)) for more information.

**Students with Disabilities**

If you are a student with a disability or believe you might have a disability that requires accommodations, please contact Dr. Richard Sanders, in Student Disability Services, 385 Garland, (410) 516-4720 or studentdisabilityservices@jhu.edu. If you need special accommodations please inform me two weeks before exam. Also check the following website for further information.
