

Homework 6 (due Wed. October 31)

The Homework problems are meant to be challenging. You are encouraged to think about and discuss homework problems with your fellow students (and with Duncan Sinclair and me) but you are expected to write up solutions by yourself.

Read Chapter 13 on integrals.

269: 1,5,7i,ii, 8iii,iv,v,

16.(Show only that Problem 15 is a special of problem 16), 17.
